

# Foam Mixer

## Model 1030

### Product Description

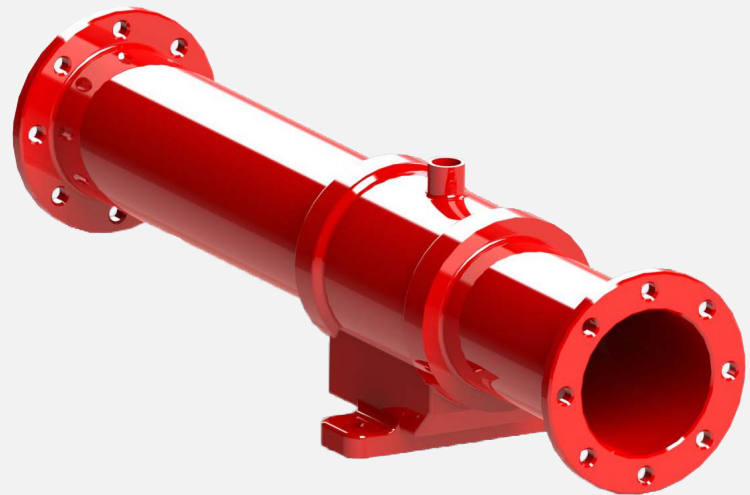

Model Number 1030 Inline Foam Inductor provides a simple cost effective means of introducing foam concentrates into the water stream. It is used for plant fire fighting systems as a foam proportioner.

### Key Features

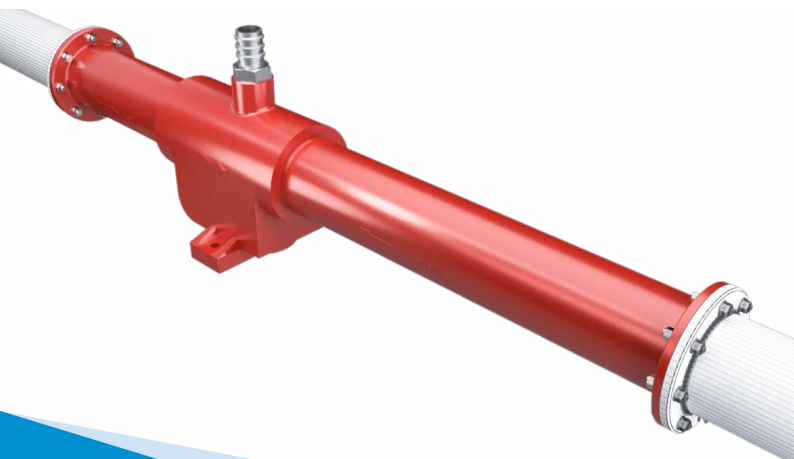

- **Efficient Mixing Technology:** Utilizes advanced technology to ensure homogeneous mixing of foam concentrate and water, maximizing firefighting effectiveness.
- **Wide Compatibility:** Compatible with a variety of foam concentrates, including AFFF, AR-AFFF, and fluorine-free foams, offering flexibility across multiple firefighting scenarios.
- **Durable Construction:** Built with high-grade materials resistant to corrosion and wear, guaranteeing longevity and durability in harsh conditions.
- **Easy Integration:** Designed for seamless integration into existing firefighting systems, ensuring easy installation and maintenance.
- **Adjustable Mixing Ratios:** Features adjustable settings to cater to different foam concentrate ratios, allowing customization according to specific requirements.
- **High Capacity:** Available in various sizes to meet the demands of both small-scale and large-scale operations.

### Product Benefit

- Calibrated to pick up between 1% and 6% foam concentrate.
- Easy to install. You do not need a special tool or experience to install the StorageTech PVV Model 1030.
- StorageTech PVV Model 1030 comes with the paint color you choose.
- Resistant to corrosion.

The StorageTech Foam Mixer is an essential component in advanced firefighting foam systems, designed for precise mixing of foam concentrate with water. Engineered for reliability and efficiency, our Foam Mixer ensures optimal foam generation, crucial for effective fire suppression in high-risk environments.

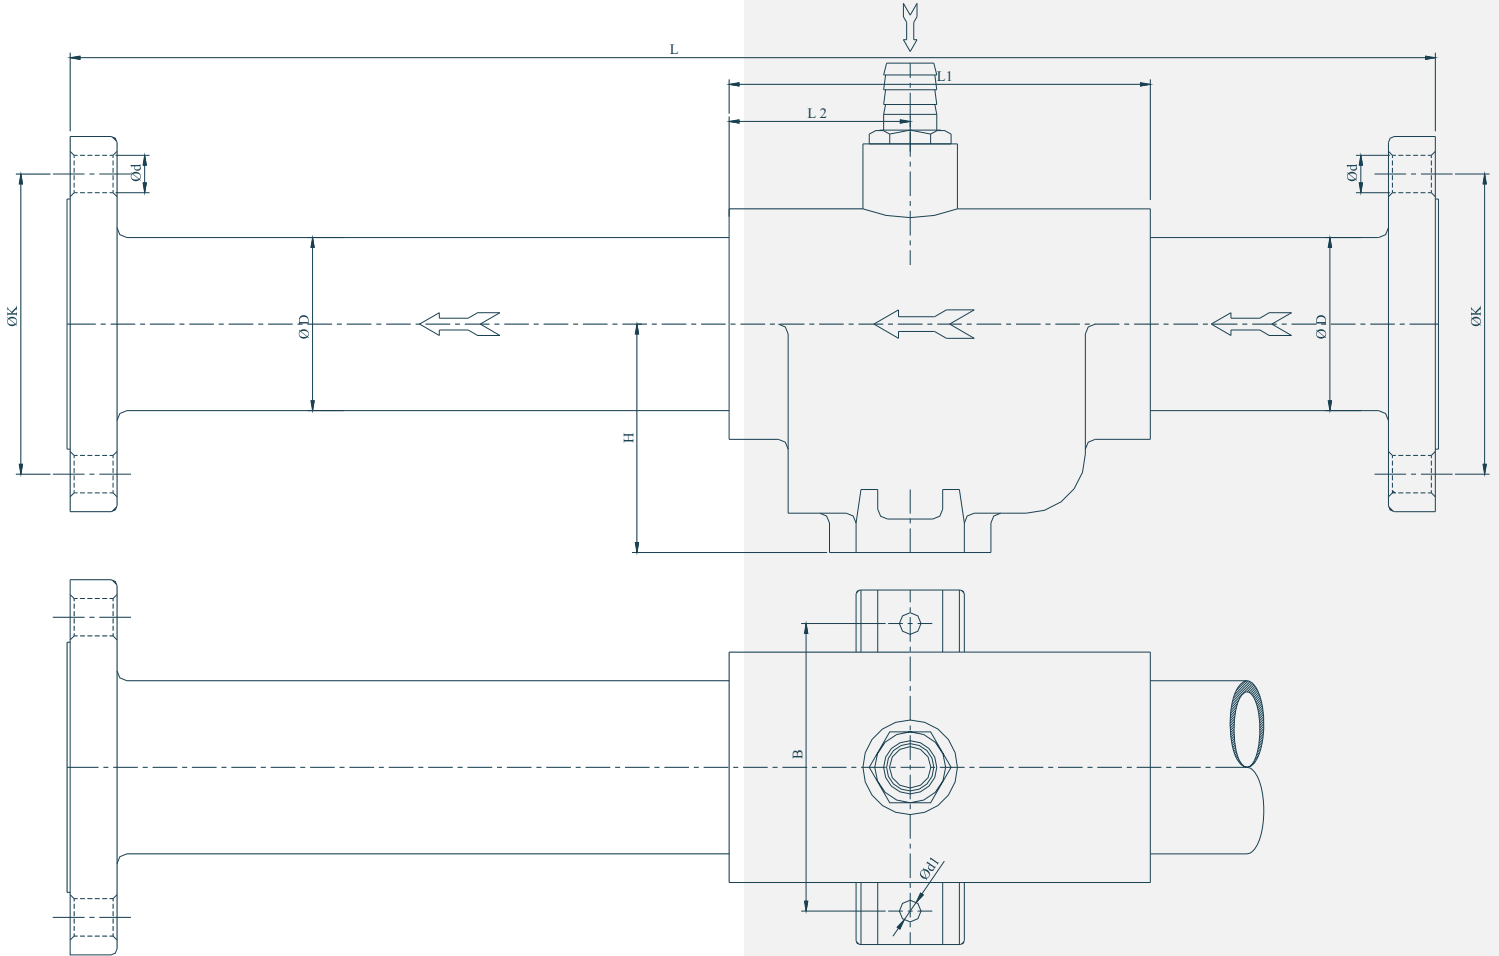

## Manufacturing Materials

Carbon Steel    304 S.S.    316 S.S.    Aluminum

## Product Range

3" 750 liter/minute    4" 1500 liter/minute

## Technical Drawing

## Äger GmbH
